Procrastination is something that most people have at least a little experience with. No matter how well-organized and committed you are, chances are that you have found yourself frittering away hours on trivial pursuits (watching TV, updating your Facebook status, shopping online) when you should have been spending that time on work or school-related projects.

A personality test is a method of assessing human personality constructs. Most personality assessment instruments (despite being loosely referred to as "personality tests") are in fact introspective (i.e., subjective) self-report questionnaire (Q-data, in terms of LOTS data) measures or reports from life records (L-data) such as rating scales. Attempts to construct actual performance tests of ...
