General instructional activities. To correspond with a typical reading lesson, comprehension strategy instruction can be organized into a three-part framework, with specific activities used before, during, and after reading. Providing instruction such as the following example allows students to see, learn, and use a variety of comprehension strategies as they read.

A CPU cache is a hardware cache used by the central processing unit (CPU) of a computer to reduce the average cost (time or energy) to access data from the main memory. A cache is a smaller, faster memory, closer to a processor core, which stores copies of the data from frequently used main memory locations. Most CPUs have different independent caches, including instruction and data caches ...
