I never planned to teach middle school. When I got my teaching degree, I was set on teaching high school English, but the only open position I found was in a middle school. So I took it, planning to move up as soon possible. Well, I never looked back. Something about that age just got me. And over ...

In logic, the law of excluded middle (or the principle of excluded middle) states that for any proposition, either that proposition is true or its negation is true. It is one of the so called three laws of thought, along with the law of noncontradiction, and the law of identity. The law of excluded middle is logically equivalent to the law of noncontradiction by De Morgan's laws.
