Mitosis Skit Students should write and perform a skit to show the process of mitosis, using the loose guidelines that follow. These guidelines are intended to help get you started, as well as provide room for the development of a skit that suits your class size, available supplies, and students' creativity.

Mitosis - Science NetLinks

Mitosis and meiosis are both ways in which cells are divided in the body. Meiosis involves creation of cells that are not genetically identical where as in mitosis the cells are the same as the parent cell. The quiz below will test how much you know about the processes. Give it a try!

Different Types Of Mitosis And Meiosis Quiz - ProProfs Quiz

The most common form of cell division is called mitosis. It is used for growth and repair. During mitosis, a cell makes an exact copy of itself and splits into two new cells. Mitosis is closely controlled by the genes inside every cell. Sometimes this control can go wrong. If that happens in just a single cell, it can replicate itself to make new cells that are also out of control.

How does mitosis cause cancer? | Socratic

What Is DNA? Scientists have discovered an unmistakable language within all living things. Like a miniature library, DNA stores piles of information in extraordinary molecules that specify the details of everything from the shape of flower petals to the color of your eyes.
