2002. A. Melissa: First of all, it is not true that nitric acid is a better passivator than others. There is MUCH data showing that our citric acid based formulations are superior in passivation to nitric acid. This is proven by the thousands of customers that are using it, including many major corporations around the world.

Understanding Nitric Acid Passivation - Finishing

West Nile virus (WNV) is an infection that is transmitted to humans primarily by mosquitoes that have bitten infected birds or other infected humans. Testing detects either the West Nile virus directly or antibodies produced in response to WNV infection in blood and/or cerebrospinal fluid (CSF).. West Nile virus is a member of the Flavivirus family, which includes viruses such as Zika, Yellow ...
