- Meet the Elements (pdf) - Share the Meet the Elements video about elements and compounds with your students. Thanks to Christina Causland for sharing the worksheet.
- Periodic Tables Online (pdf) - A worksheet I use to review the basics of the periodic table.

Chemistry Lesson Plans - The Science Spot

The atom is the basic building block for all matter in the universe. Atoms are extremely small and are made up of a few even smaller particles. The basic particles that make up an atom are electrons, protons, and neutrons. Atoms fit together with other atoms to make up matter. It takes a lot of ...

Science for Kids: The Atom - Ducksters: Education Site

R f values are calculated by looking at the distance each component travels on the chromatography paper compared to the distance traveled by the solvent front. This ratio will be different for each component due to its unique chemical properties. When measuring the distance the component traveled, you should measure from the origin (where the middle of the spot originally was) and then to the ...
