Prejudice can have a strong influence on how people behave and interact with others, particularly with those who are different from them. Prejudice is a baseless and usually negative attitude toward members of a group. Common features of prejudice include negative feelings, stereotyped beliefs, and a tendency to discriminate against members of the group.

Humanistic psychology is a psychological perspective that rose to prominence in the mid-20th century in answer to the limitations of Sigmund Freud's psychoanalytic theory and B. F. Skinner's behaviorism. With its roots running from Socrates through the Renaissance, this approach emphasizes individuals' inherent drive towards self-actualization, the process of realizing and expressing one's own ...
