Game theory is the study of mathematical models of strategic interaction between rational decision-makers. It has applications in all fields of social science, as well as in logic and computer science. Originally, it addressed zero-sum games, in which one person's gains result in losses for the other participants. Today, game theory applies to a wide range of behavioral relations, and is now an ...

Overview. The term was popularized by Naomi Klein. In her 2007 book *The Shock Doctrine*, she argues that neoliberal free market policies (as advocated by the economist Milton Friedman) have risen to prominence in some developed countries because of a deliberate strategy of "shock therapy". Johan Norberg of the Cato Institute criticized the book, saying that the concept of shock therapy is ...
