Milestone trend analysis (MTA) is one of the most used "tools" in controlling the project schedule. It enables the project team to visualize if the work corresponding to certain project milestones is ahead of, on, or behind schedule. This means that we need a project schedule including its related milestone plan first.

A: Electronic toll collection, referred to as "ETC," is a proven method of toll collection. Instead of transactions changing hands at a tollbooth, vehicles are equipped with a small electronic device, called a transponder, that transmits both vehicle and account information through a reader located in the toll lane that is equipped with the technology.
