Not really the prettiest solution, but you could download the complete code repository of one of the excel handling packages for python (openpyxl for example) and put these files in the same directory as the python script that you're going to run. Subsequently you can do an import of these local package files in your script.. Note: if the excel handling package has dependencies on other ...

Psychology is the scientific study of mind, brain and behaviour. It is strongly interconnected to other disciplines such as biology, physics, medicine, neuroscience, politics, sociology and economics.

Psychology (BSc) - Undergraduate, University of York

The following is a list of people who are considered a "father" or "mother" (or "founding father" or "founding mother") of a scientific field. Such people are generally regarded to have made the first significant contributions to and/or delineation of that field; they may also be seen as "a" rather than "the" father or mother of the field. Debate over who merits the title can be perennial.

This is an excellent interview, which I will be returning to re-read. As someone who has been directly involved in research and speculation about this matter for some 20 years now, it is refreshing to see someone who can direct the force of years of independent research at what will turn out to be one of the most crucial topics in human cognitive evolution, and may supply the keys to the many ...
