Show Notification for New Deployments is set to "Yes". There are no maintenance windows on the collection. Thanks for those suggestions. I do see that the patches will install at the deadline (in 3 hours) on my computer because I can go to the tool tray and see the "Software Changes are required" item in my tool tray, but I would like the reminders to popup every hour.

The next traditional version (five-year mainstream, five-year extended support) of Windows Server became generally available (GA) in October at Ignite US. But because this skipped the traditional release-to-manufacturing (RTM) step, hardware manufacturers still needed to test and validate their server hardware. So this blocked some features (like Storage Spaces Direct) from installation.

In this two-part article, we'll look at Storage Spaces Direct (S2D) in Windows Server 2016. We'll also look at how it works, the two deployment modes, the scenarios in which you should consider S2D and which ones it doesn't suit. In this post, I will talk about the core features and fault tolerance. In my next post, I will explain how to set up and manage S2D clusters.
