Welcome to the King's subject page for Natural Scientists. Here we provide a synopsis of the Natural Sciences course, details of how to apply and what we are looking for, and a few reasons why King's is such a good place to study Natural Sciences at Cambridge.

Natural Sciences | King's College, Cambridge

In chemistry, a nonmetal (or non-metal) is a chemical element that mostly lacks the characteristics of a metal. Physically, a nonmetal tends to have a relatively low melting point, boiling point, and density. A nonmetal is typically brittle when solid and usually has poor thermal conductivity and electrical conductivity. Chemically, nonmetals tend to have relatively high ionization energy ...

Excellent, detailed lists of famous Anglicans and Episcopalians can be found on the external links listed in the box on the right. When we have found names of additional famous Episcopalians and Anglicans not listed on these other pages, or when we have created dedicated spiritual/religious biography pages for these individuals, we have listed them here:

Famous Anglicans and Episcopalians | Notable Anglicans

A tabela periódica é uma disposição sistemática dos elementos químicos ordenados por seus números atômicos, configuração eletrônica, e recorrência das propriedades periódicas. Este ordenamento mostra tendências periódicas, tais como elementos com comportamentos similares na mesma coluna. Também mostra quatro blocos retangulares com propriedades químicas similares.
