I saw this cartoon from Randall Munroe, and it reminded me of something I wrote awhile ago.. The quick story is that I don't think the alternative histories within alternative histories are completely arbitrary. It seems to me that there's a common theme in the best alternative history stories, a recognition that our world is the true one and that the people in the stories are living in a ...

It was not until the invention of the electric telegraph in 1835 that the modern age of weather forecasting began. Before that, the fastest that distant weather reports could travel was around 100 miles per day (160 km/d), but was more typically 40–75 miles per day (60–120 km/day) (whether by land or by sea).
