Understatement is a form of speech or disclosure which contains an expression of lesser strength than what would be expected. It is the opposite of an embellishment. The rhetorical form of understatement is litotes in which understatement is used for emphasis and irony. This is not to be confused with euphemism, where a polite phrase is used in place of a harsher or more offensive expression.

Understatement - Wikipedia

OSHA (The Occupational Safety and Health Administration) deemed stress a "hazard of the workplace," and estimates put the cost of stress at \$190 billion a year in annual healthcare bills. And it's not isolated to specific industries - the problem is widespread. 65% of adults say that work is the source of their significant stress.
