Mitsubishi - Questions and Answers - RepairPal

I have a Mitsubishi eight zone system (MXZ-8B48NA, I believe) in my Cape Cod (about 1300 sq feet between the first and second floor and another 800 square feet in the basement). Seven of the eight zones are connected and in use. The system was installed in April 2012, replacing several room air conditioners. The summer of 2012 and the first half of the summer of 2013 were wonderful.

Mitsubishi mini split troubleshoot inverter board

Most transmission problems are a result of overheating. Reasons for overheating include low fluid levels, leaks, burned, old or dirty fluid, or problems with the solenoid. You can ensure the long life and efficient performance of your transmission – and your car – by doing some things to make sure it does not run too hot.

Reasons Your Transmission is Overheating | AAMCO Colorado

If you are concerned about possible Mitsubishi water pump problems, the right thing to do is to get the guidance and insights of verified Experts on the problems you face and their solutions.

Mitsubishi Water Pump Troubleshooting Questions and Answers

Mitsubishi Magna 1999 model. Yesterday while driving the battery light on my dash came on (which says a charging fault). Battery has been tested fine. However the light only came on for about 3 minutes and went off. Sometimes today when i start my car the light comes on but if i restart it it stays off. Could this be an alternator problem?
