Economics (/ ɛ k ə ' n ɒ m i k s, iː k ə-/) is the social science that studies the production, distribution, and consumption of goods and services.. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and markets, their interactions, and the outcomes of interactions.

In microeconomics, economies of scale are the cost advantages that enterprises obtain due to their scale of operation (typically measured by amount of output produced), with cost per unit of output decreasing with increasing scale. (In economics, "economies" is synonym to cost savings and "scale" is synonymous with quantity or the scale of production.)
