RFM analysis (Recency, Frequency, Monetary) is a proven marketing model for customer segmentation. It groups customers based on their shopping behavior - how recently, how many times and how much did they purchase. RFM becomes an easy to understand method to find your best customers and then run targeted email / marketing campaigns to increase sales, satisfaction

and customer lifetime value.

RFM Analysis For Successful Customer Segmentation - Putler

Government economic policy, measures by which a government attempts to influence the economy. The national budget generally reflects the economic policy of a government, and it is partly through the budget that the government exercises its three principal methods of establishing control: the allocative function, the stabilization function, and the distributive function.
