- When you go to generate new ideas to run things better you need to think critically about the way your business runs. I like to look at three things, a business model blow-up, a revenue blow-up, and a cost blow-up. On the business model blow-up, fundamentally rethink about how you go to market. Even rethink what your market actually is.

When you let the balloon go, the rubber contracts, and air is rapidly squeezed out the opening of the balloon. The potential energy inside the balloon is converted to kinetic energy, or energy of motion, of the fast-moving air through the opening. Because the air is pushed out rapidly backwards, there is a reaction force that pushes the balloon forward, as shown in Figure 3.
