Working Capital, Acquisition, and Medical Accounts ...

Factoring is a financial transaction and a type of debtor finance in which a business sells its accounts receivable (i.e., invoices) to a third party (called a factor) at a discount. A business will sometimes factor its receivable assets to meet its present and immediate cash needs. Forfaiting is a factoring arrangement used in international trade finance by exporters who wish to sell their ...

Factoring (finance) - Wikipedia

One of the common issues we confront when called to perform a physician billing department assessment, or a more broad based medical practice analysis, is the lament: "Why aren't we collecting more of our accounts receivable". And the corollary: "Why can't I get a straight answer to that question from the office manager/administrator/billing supervisor?"
