Multiple Choice Answer Grids

One of the biggest criticisms of multiple choice questions is that they only test factual knowledge. But it doesn't have to be that way. We can also use multiple choice questions to assess higher-order thinking. Higher order thinking goes beyond memorizing and recalling facts and data. It even ...

Writing Multiple Choice Questions For Higher Order Thinking

This is a back-to-basics article about the undervalued and little-discussed multiple choice question. It's not as exciting as discussing 3D virtual learning environments, but it might be just as important. If you need to use tests, then you want to reduce the errors that occur from poorly written ...

Overview. Grid computing combines computers from multiple administrative domains to reach a common goal, to solve a single task, and may then disappear just as quickly. The size of a grid may vary from small—confined to a network of computer workstations within a corporation, for example—to large, public collaborations across many companies and networks.

Grid computing - Wikipedia

Answer masking places a “mask” over multiple-choice answer options so that students can only look at one (or more) answer options at a time. Each mask can be removed by selecting the elliptical icon (the “eye”) to the right of the answer option. ... Coordinate Grids: Plot a point on the grid by selecting a location with the pointer tool ...

The world today is powered by wasteful and inflexible electricity grids that stand in the way of deep cuts to greenhouse gas emissions. But new experiments are pushing artificial intelligence and sensor networks into the grid—and into factories, data centers, and transit systems—in order to pull fossil fuels out.

Artificial Intelligence and Decarbonization - Anthropocene

A crossword is a word puzzle that usually takes the form of a square or a rectangular grid of white- and black-shaded squares. The game's goal is to fill the white squares with letters, forming words or phrases, by solving clues, which lead to the answers. In languages that are written left-to-right, the answer words and phrases are placed in the grid from left to right and from top to bottom.

Crossword - Wikipedia

I discovered a quote by Jennifer Gonzalez where she interviewed Cognitive Scientist Pooja Agarwal “Retrieval practice: The most powerful learning strategy you're not using” (you can listen to the podcast interview here) and this resonated with me because it wasn't a strategy I was using for many years during my teaching career. Teachers often have so much content to get through that ...
