Transcript of 5.02 Natural Selection Lab. The prey will be represented by the small 1 cm × 1 cm squares of paper and the habitat is represented by the 1 meter × 1 meter piece of fabric. Hypothesize which color prey you think is most likely to be captured by the predator and which color prey is most likely to survive, and then record your hypothesis.

5.02 Natural Selection Lab by Herlina Everett on Prezi

This lab is based on a game invented by G. Ledyard Stebbins, a pioneer in the evolution of plants. The purpose of the game is to illustrate the basic principles and some of the general effects of evolution by natural selection. The students take turns acting as predators of butterflies camouflaged on various patterned cloth backgrounds.

Untitled 1 [local-brookings.k12.sd.us]

Natural Selection of Butterflies. Step 1: Divide the class into two-person teams. Each team will begin with a different, colored cloth "environment" (~16" x 16" square). One person should be designated as the first "Butterfly Predator". The Butterfly Predator should not be allowed to see what goes on in Step 2,...
