A false memory is a psychological phenomenon where a person recalls something that did not happen or that something happened differently from the way it happened.. This phenomenon was initially investigated by psychological pioneers Pierre Janet and Sigmund Freud. Elizabeth Loftus has, since her debuting research project in 1974, been a lead researcher in memory recovery and false memories.

The Gettier problem, in the field of epistemology, is a landmark philosophical problem concerning our understanding of descriptive knowledge. Attributed to American philosopher Edmund Gettier, Gettier-type counterexamples (called "Gettier-cases") challenge the long-held justified true belief (JTB) account of knowledge. The JTB account holds that knowledge is equivalent to justified true belief ...
