Multimedia Making It Work Answers

Multimedia is content that uses a combination of different content forms such as text, audio, images, animations, video and interactive content. Multimedia contrasts with media that use only rudimentary computer displays such as text-only or traditional forms of printed or hand-produced material.. Multimedia can be recorded and played, displayed, interacted with or accessed by information ...

Recently, I wrote about the quandary of grouping. Small group instruction supports greater student engagement, higher amounts of interaction, greater opportunity for teacher observation, and more student learning. However, the benefits of small group are balanced by the relative ineffectiveness of most seatwork activities. Subtracting the downside of working on one's own away
