I have found similar questions that deal with copying an entire worksheet in one workbook and pasting it to another workbook, but I am interested in simply copying an entire worksheet and pasting it to a new worksheet -- in the same workbook.

vba - Copy an entire worksheet to a new worksheet in Excel ...

You are probably right and I have overdone this. But I still remember when I first started with Excel VBA about ten years ago. I knew all the control structures from other languages but the object model and the macro recorder made no sense until I came across something like this answer and then suddenly it all fell into place.
