The Lab Ray. The Secret Laboratory is highly sought after on Neopets; it allows for stats increases (and decreases), as well as species, gender and colour changes for your pets. This article should explain what the Lab Ray does, how likely the outcomes are, and some other perks of owning it. If you are looking for information about the Petpet Lab Ray, please see this guide.

My therapist told me I was running out of time. She had been recommending I sign myself into the hospital for several weeks. Each time, I said I was fine, that such drastic measures weren't ...

I didn't believe I had anorexia. But the threat of forced ...

In this part of the website we apply the ANOVA methodology of One-way ANOVA and Two-way ANOVA to the extension of the paired samples problem studied in Paired Sample t Test. In this analysis, known as ANOVA with Repeated Measures, the rows correspond to subjects or participants in the experiment and the columns represent various treatments (often based on time) for each subject.

ANOVA with Repeated Measures | Real Statistics Using Excel

Height and weight of the Morgan State University men's basketball players. If you keep both variables as measurement variables and analyze using linear regression, you get a P value of 0.0007; the relationship is highly significant. Tall basketball players really are heavier, as is obvious from the graph.

Kinds of variables - Handbook of Biological Statistics

A much-touted study recommended therapy and exercise for patients with chronic fatigue syndrome. Problem is, it was based on bad science.

How bad science misled chronic fatigue syndrome patients

Hi Charles, My name is Tom and I am a second year student revising for my stats test, I am wondering if you could explain the 4 steps of the parametric assumptions of data analysis, randomness, level of data, normal distribution and homogeneity of variance.

Assumptions for Statistical Tests | Real Statistics Using ...

I saw this cartoon from Randall Munroe, and it reminded me of something I wrote awhile ago.. The quick story is that I don't think the alternative histories within alternative histories are completely arbitrary. It seems to me that there's a common theme in the best alternative history stories, a recognition that our world is the true one and that the people in the stories are living in a ...

Statistical Modeling, Causal Inference, and Social Science

Use regression analysis to describe the relationships between a set of independent variables and the dependent variable. Regression analysis produces a regression equation where the coefficients represent the relationship between each independent variable and the dependent variable. You can also use the equation to make predictions. As a statistician, I should probably tell you that I love all

...

When Should I Use Regression Analysis? - Statistics By Jim

Pretty easy class. Lab is due at the end of semester but most answers are already given. Quizzes are cake if you invest in CourseHero. Gives you 2 chances & hours to finish them.

How To Protect Yourself Against The Risk Of Dog Bites. Dog liability insurance is a special policy that you can get to insure yourself in case you have what a landlord or other important person in your life might consider a "dangerous dog breed." If you have one of these dogs, you most certainly know it as some people are probably a little scared of your pup.

Dog Bite Statistics (How Likely Are You To Get Bit ...

The Student's t-test is a statistical test that compares the mean and standard deviation of two samples to see if there is a significant difference between them. In an experiment, a t-test might be used to calculate whether or not differences seen between the control and each experimental group are a factor of the manipulated variable or simply the result of chance.
