Standard form calculator - Algebrator

If you encounter a variable on both sides of the equal sign, don't assume it's a typo and move on to the next problem; it may very well be there on purpose. The key to solving these types of equations is to move all the terms containing the variable to one, and only one, side. It doesn't matter ...

Basic Algebra Solving Equations with Variables on Both Sides

When an algebraic expression is composed of parts to be multiplied, these parts are called the factors of the expression.. ab has factors, a and b . It is very important to be able to distinguish between terms and factors.

Simplify radical,rational expression with Step-by-Step ...

Translating algebra expressions is pretty easy once you have learned all of the key words that correlate with the four operations. In this lesson, you will have four charts outlining all of the key words that are necessary for translating algebraic expressions.
