Biology Department. If you have an interest in living organisms, Northern's Biology Department has a major for you. What interests you most? The interactions of plants and animals in ecosystems, understanding how organisms work at the systems or cellular level, or understanding the development or evolution of living things?

Home Page | NMU Department of Biology

Evolutionary biology is the subfield of biology that studies the evolutionary processes that produced the diversity of life on Earth, starting from a single common ancestor. These processes include natural selection, common descent, and speciation.. The discipline emerged through what Julian Huxley called the modern synthesis (of the 1930s) of understanding from several previously unrelated ...

Evolutionary biology - Wikipedia

In the 1920s and 1930s the so-called modern synthesis connected natural selection and population genetics, based on Mendelian inheritance, into a unified theory that applied generally to any branch of biology. The modern synthesis explained patterns observed across species in populations, through fossil transitions in palaeontology, and complex cellular mechanisms in developmental biology.

Evolution - Wikipedia

Biology. Explore the science of life by learning about the systems and structures that make up the organisms of our world.

Biology - ThoughtCo

Trying to get access to some journal articles. Found some of them listed under EBSCO but I don't know how to actually search for them.

How Are Cavemen Different? | Answers in Genesis

4. Lingual salt glands: Crocodiles and gharials also differ from alligators and caimans in having functioning salt glands on their tongue. Structurally, these are actually modified salivary glands, and while alligators and caimans also have these structures they appear to have lost the ability to use them for excreting significant amounts of salt.

Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.
