Hypothesis. If the change in temperature is greater when the water is heated with the use of the fire caught by the food substance, then the energy content in the food substance is higher because the heat energy is greater, since the heat energy is absorbed by the water when the fire is kept under the test tube containing water.

You seem to have a lot of opinions on Waldorf education. What are your experiences with Waldorf Education? Over the years I have had many experiences with Waldorf education, from sharing a house with a Waldorf teacher and her 9 year old daughter, to student teaching in a Waldorf school.

My experiences with Waldorf - Montessori Answers

Checking your blood sugar with a blood test tends to be a little more involved than using a urine test. You can do this at home using a special device called a glucometer that will give a digital readout of your blood sugar levels. First, you'll have to prick the tip of your finger with a lancet, which normally comes with the glucometer.

How do I Test my Blood Sugar Levels? (with pictures)
