Analytical resources from Sheffield Hallam University (UK) has a number of ...

Chemistry tutorials

The following is a list of people who are considered a "father" or "mother" (or "founding father" or "founding mother") of a scientific field. Such people are generally regarded to have made the first significant contributions to and/or delineation of that field; they may also be seen as "a" rather than "the" father or mother of the field. Debate over who merits the title can be perennial.

Trends elucidated from MLX plots. By summarizing a vast quantity of factual information, the MLX plot reveals important characteristics of the chemistry of the element under consideration and the information embodied in an MLX plot enables a variety of periodic trends to be established by comparing the distributions for the elements.

The CBC Method - Columbia University

The start of Western alchemy may generally be traced to ancient and Hellenistic Egypt, where the city of Alexandria was a center of alchemical knowledge, and retained its pre-eminence through most of the Greek and Roman periods. Here, elements of technology, religion, mythology, and Hellenistic philosophy, each with their own much longer histories, combined to form the earliest known records ...
