The following is a list of people who are considered a "father" or "mother" (or "founding father" or "founding mother") of a scientific field. Such people are generally regarded to have made the first significant contributions to and/or delineation of that field; they may also be seen as "a" rather than "the" father or mother of the field. Debate over who merits the title can be perennial.

Question: In a nuclear reactor, lowering control rods will result in? Nuclear Power. Nuclear power refers to the harnessing of the energy of the atom to generate electricity.

In a nuclear reactor, lowering control rods will result in ...

The history of chemistry represents a time span from ancient history to the present. By 1000 BC, civilizations used technologies that would eventually form the basis of the various branches of chemistry. Examples include extracting metals from ores, making pottery and glazes, fermenting beer and wine, extracting chemicals from plants for medicine and perfume, rendering fat into soap, making ...

Honesty On each exam day I am going to give you two examinations, one in chemistry and one in honesty. I hope you will pass them both, but if you must fail one, let it be chemistry, for there are many good people in this world today who cannot pass an examination in chemistry, but there are no good people in the world who cannot pass an examination in honesty.

Some discoveries are just too shocking to digest. Recently I wrote of intrepid Ron Unz, the Californian maverick publisher and IT-genius, who dared to share with his readers his insights into the ideas and motifs of revisionists, or Holocaust Deniers, as their enemies call them. But this absolutely verboten topic fades into irrelevance in comparison with his most momentous discovery that has ...
