SQL Queries Interview Questions and Answers - A4academics

Not the latest thread but I thought I might leave my 2 cents here. The command line provided is not quite correct. To specify password in command line, you set --password=<pass_goes_here> to use database via command line, you put in mysql -u <user> -p <database_name> this way the -p means that mysql client will prompt for password input and not read it from command line - Didzis Mar 1 '18 at ...
