The first article Mathematical Problem Solving in the Early Years pointed out that young children are natural problem setters and solvers: that is how they learn. This article suggests ways to develop children's problem solving strategies and confidence. Problem solving is an important way of learning, because it motivates children to connect previous knowledge with new situations and to ...

Moles on a child's skin are generally nothing to worry about. New moles appear during childhood and adolescence. As the child grows, the moles will naturally get bigger. It's also normal for moles on a child's skin to darken or lighten. Some moles fade away. These changes are common and rarely a sign of melanoma, a type of skin cancer that can begin in a mole.
