Left atrial enlargement is linked to several conditions, including atrial fibrillation and heart failure. Learn more about the causes and treatment.

Left atrial enlargement: Symptoms, causes, and treatment

Results of the cohort studies reporting data on glyphosate and cancer are shown in Table 2. Flower et al. (2004) evaluated associations between pesticide application by parents and cancer among children born to Iowa participants in the AHS. Female applicators and spouses of male applicators were asked to complete a questionnaire to collect data on children born after 1975.

The human CBS protein can substitute for the endogenous yeast CBS protein in *Saccharomyces cerevisiae* (Kruger and Cox, 1994). Heme may be necessary for binding of pyridoxal 5-prime phosphate to CBS and for correct CBS folding (Kery et al., 1999). The catalytic domain of the CBS protein is located in the N-terminal 409 amino acids, and a regulatory domain is located in the C-terminal 142 amino acids.

Chan et al. (2007) examined the biochemical characteristics of rod and cone arrestins with respect to their ability to quench the activity of light-activated rhodopsin in transgenic mice. The mouse rod opsin promoter was used to drive expression of mouse cone arrestin in rod photoreceptor cells of rod arrestin knockout (Arr1 ^{-/-}) mice. Two independent lines of transgenic mice were obtained that ...

Lyme disease, the most common vector-borne illness in the United States, is a multisystem illness usually caused by infection with the spirochete *Borrelia burgdorferi* (see the image below) and the body's immune response to the infection. [] The disease is transmitted to humans via tick bites, from infected ticks of the genus *Ixodes*.

Lyme Disease: Practice Essentials, Background, Etiology

Inositol is a word that collectively refers to molecules with a similar structure, a collection of nine stereoisomers. While the term 'inositol' is used commonly with dietary supplements, it usually refers to a specific stereoisomer called myo-inositol. Inositols are pseudovitamin compounds that are falsely said to belong to the B-complex family, and are found in most foods but in highest ...
