Here's the long-awaited, uncensored inside story from the "thought criminal" himself—Germar Rudolf. Rudolf was a highly respected chemist with a promising career—a graduate of the Max Planck Institute—who made the "mistake" of telling the truth at a place (Germany) and time (during court) when lies are the only permissible public statements about the Holocaust.

Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...
