The answer, I think, is the one I put forward in my talk when I anticipated it would get me into trouble. Proposing that some gender imbalances in fields like physics might not be due to discrimination is like being a social scientist in the Soviet Union and proposing that some class differences aren't due to discrimination.

Demining or mine clearance is the process of removing land mines from an area. In military operations, the object is to rapidly clear a path through a minefield, and this is often done with devices such as mine plows and blast waves. By contrast, the goal of humanitarian demining is to remove all of the landmines to a given depth and make the land safe for human use.
