The measurement problem in quantum mechanics is the problem of how (or whether) wave function collapse occurs. The inability to observe such a collapse directly has given rise to different interpretations of quantum mechanics and poses a key set of questions that each interpretation must answer.. The wave function in quantum mechanics evolves deterministically according to the Schrödinger ...

Level Flight at Cl=x.xx - This appears only on the in-flight analysis, and only if the wing area and airframe weight were specified. It indicates the speed at which the aircraft will neither gain nor lose altitude with the throttle set appropriately (this will be indicated as a percentage in the Stats section at the top of the window), and the control surfaces at neutral.
