The tree of life or universal tree of life is a metaphor, model and research tool used to explore the evolution of life and describe the relationships between organisms, both living and extinct, as described in a famous passage in Charles Darwin's On the Origin of Species (1859).. The affinities of all the beings of the same class have sometimes been represented by a great tree.

Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.

It's a pity isn't quite worn out yet, but using Pity! as a complete sentence is distinctively "Britishy". What is old-fashioned is to use the 'tis contraction instead of it is: `tis a pity!. The word pity is both a verb and noun. Should the public pity Lance Armstrong? It is an important word in the English language for which there is no equally glib substitute.
