David Ray Griffin, PhD – Professor Emeritus, Philosophy of Religion and Theology, Claremont School of Theology. Author/editor of over two dozen books, Prof. Griffin first questioned the 9/11 official story in 2003 while exploring a 9/11 timeline filled with reliable, verifiable facts suggesting a major cover-up. He then switched his focus from theology to 9/11 research.

The following is a list of people who are considered a "father" or "mother" (or "founding father" or "founding mother") of a scientific field. Such people are generally regarded to have made the first significant contributions to and/or delineation of that field; they may also be seen as "a" rather than "the" father or mother of the field. Debate over who merits the title can be perennial.

We have been created fearfully and wonderfully by our Creator God, and the human body showcases God's intricate design. Design features are evident in the structures and functions of each of the body systems. I present a design approach to the study of human anatomy and physiology from a biblical worldview.

What you probably want is `dir()`. The catch is that classes are able to override the special `__dir__` method, which causes `dir()` to return whatever the class wants (though they are encouraged to return an accurate list, this is not enforced). Furthermore, some objects may implement dynamic attributes by overriding `__getattr__`, may be RPC proxy objects, or may be instances of C-extension classes.

"I know that most men, including those at ease with problems of the greatest complexity, can seldom accept even the simplest and most obvious truth if it be such as would oblige them to admit the falsity of conclusions which they have delighted in explaining to colleagues, which they have

proudly taught to others, and which they have woven, thread by thread, into the fabric of their lives."
