x We report the case of a 56 year-old female with a six-year history of severe epigastric pain following chest compressions for cardiac arrest. A comprehensive gastrointestinal workup was negative. However, an abdominal CT scan demonstrated an elongated xiphoid process. After a xiphoid trigger point injection, she experienced pain relief lasting four days, and thus her symptoms were attributed ...

In addition to the Business Core and major requirements, most majors will require successful completion of Business electives to obtain these 51 credits.

FAU Catalog - College of Business

Closing a Project or Phase “Close Project or Phase is the process of finalizing all activities for the project, phase, or contract.. The key benefits of this process are the project or phase information is archived, the planned work is completed, and organizational team resources are released to pursue new endeavors.

Closing a Project or Phase | Project Management ...

Wastewater treatment is a process used to remove contaminants from wastewater or sewage and convert it into an effluent that can be returned to the water cycle with minimum impact on the environment, or directly reused. The latter is called water reclamation because treated wastewater can then be used for other purposes. The treatment process takes place in a wastewater treatment plant (WWTP ...
