What are the Month of math answers?

OK so here is another one of my monthly math questions. As usual, the person who gives the most detail and explains how they got the answer the best gets the points!!! So, here it goes: Find the phone number, including area code, using the following clues: 1. All the digits are different. 2. The second and tenth digits are cubes 3.

10 Point Math Question of the Month ... - answers.yahoo.com

both math&non math related problems. theses are pretty hard :/NOTE: THE ANSWERS ARE NUMBERS FROM 1-31 ONLY! 1. The number feared by Pythagoreans, since it lies halfway between the only two integers that can be both the perimeter and the area of the same rectangle. 3. The two-digit number whos...

"a Month Of Math! Problems" - - I Need Help! :d - soompi ...

The Problems of the Month are non-routine math problems designed to be used schoolwide to promote a problem-solving theme at your school. Each problem is divided into five levels of difficulty, Level A (primary) through Level E (high school), to allow access and scaffolding for students into different aspects of the problem and to stretch students to go deeper into mathematical complexity.
