Description: When we are dealing with many worksheet, it is a routine thing to copy data from one worksheet to another in Excel VBA. For example, we may automate a task which required to get the data from different worksheets (some times different workbooks).

Copy Data from one Worksheet to Another in Excel VBA

In statistics, the multiple comparisons, multiplicity or multiple testing problem occurs when one considers a set of statistical inferences simultaneously or infers a subset of parameters selected based on the observed values. In certain fields it is known as the look-elsewhere effect.. The more inferences are made, the more likely erroneous inferences are to occur.

Multiple comparisons problem - Wikipedia

You have not asked the question to which this is an answer. See Requested answer for the answer you requested. Your code works so I doubt you know it is bad VBA. From the comment at the top, I assume this code was created by the Macro Recorder.

Broca's area is generally defined as comprising Brodmann areas 44 and 45, which lie anterior to the premotor cortex in the inferior posterior portion of the frontal lobe. Though both area 44 and area 45 contribute to verbal fluency, each seems to have a separate function, so that Broca's area can be divided into two functional units.
