Businesses rely on metrics to measure performance over time and monitor progress towards achieving key goals. Financial metrics drawn from accounting measures help management, shareholders, and key stakeholders assess an organization's overall financial health at a point in time as well as monitor the improvement or decline in health over a period.

The feedback from my March 1 article about OEMs needing to increase their awareness of total supplier value-add above and beyond piece price was along the lines of: "Yeah, right. A nice vision that will never happen." Well, I disagree. Call me a cynic, but I believe the biggest consideration in a person's decision-making process is self-interest.

TED Talk Subtitles and Transcript: Uber didn't start out with grand ambitions to cut congestion and pollution. But as the company took off, co-founder Travis Kalanick wondered if there was a way to get people using Uber along the same routes to share rides, reducing costs and carbon footprint along the way. The result: uberPOOL, the company's carpooling service, which in its first eight months ...
