The following is a list of people who are considered a "father" or "mother" (or "founding father" or "founding mother") of a scientific field. Such people are generally regarded to have made the first significant contributions to and/or delineation of that field; they may also be seen as "a" rather than "the" father or mother of the field. Debate over who merits the title can be perennial.

Modern history, the modern period or the modern era, is the linear, global, historiographical approach to the time frame after post-classical history. Modern history can be further broken down into periods: The early modern period began approximately in the early 16th century; notable historical milestones included the European Renaissance, the Age of Discovery, and the Protestant Reformation.

Modern history - Wikipedia

Chapter 41 - Fire BASIC CONCEPTS. Dougal Drysdale. The Chemistry and Physics of Fire. Fire is a manifestation of uncontrolled combustion. It involves combustible materials which are found around us in the buildings in which we live, work and play, as well as a wide range of gases, liquids and solids which are encountered in industry and commerce.
