The appearance of a glass two way mirror depends on which side you are looking through—it is only reflective from one side. With lighting darker on the observation side, the observer is able to see straight through it, but from the other side all you see is a regular mirror.

Glass Two Way Mirror | In Stock | Custom Sizes | Worldwide ...

Among the rear-view mirror's early uses is a mention by Dorothy Levitt in her 1909 book The

Woman and the Car which noted that women should "carry a little hand-mirror in a convenient place when driving" so they may "hold the mirror aloft from time to time in order to see behind while driving in traffic". However, earlier use is described in 1906, in a trade magazine noting mirrors for showing ...
