A problem with searching inside a Word document XML file is that the text can be split into elements at any character. It will certainly be split if formatting is different, for example as in Hello World. But it can be split at any point and that is valid in OOXML. So you will end up dealing with XML like this even if formatting does not change in the middle of the phrase!

In the late 15th century, the cornucopia of foods from the New World brought items – such as maize and potatoes – to the fore. Both quickly became staples in the Old World, and although clearly not technically legumes, the question arose as to whether they should nevertheless be included in the category of kitniyot. Maize is generally considered to be kitniyot, whereas potatoes are not.

Greek has been spoken in the Balkan peninsula since around the 3rd millennium BC, or possibly earlier. The earliest written evidence is a Linear B clay tablet found in Messenia that dates to between 1450 and 1350 BC, making Greek the world's oldest recorded living language. Among the Indo-European languages, its date of earliest written attestation is matched only by the now-extinct Anatolian ...
