Mechanical Universe Video Answers

The heat death of the universe, also known as the Big Chill or Big Freeze, is an idea of an ultimate fate of the universe in which the universe has evolved to a state of no thermodynamic free energy and therefore can no longer sustain processes that increase entropy. Heat death does not imply any particular absolute temperature; it only requires that temperature differences or other processes ...

(2003-07-26) 0 Zero is a number like any other, only more so... Zero is probably the most misunderstood number. Even the imaginary number i is probably better understood, (because it's usually introduced only to comparatively sophisticated audiences). It took humanity thousands of years to realize what a great mathematical simplification it was to have an ordinary number used to indicate ...

The video shows how two simple amusement park games can be deceptively challenging when the game's design is based on some basic laws of physics. Throwing a ball and knocking off three small blocks stacked on a table appears easy enough, but Mary Jane and Eliza found that the way the blocks were arranged on the table made it nearly impossible to get all the three to fly off the table no matter ...
