I designed this Investigation to help students notice the structure associated with multiplying polynomials (MP7).. The lesson is sequenced after students have learned how to multiply various polynomials. The emphasis today is not on the arithmetic of polynomial operations but rather on the structure of the product.

Ninth grade Lesson Multiplying Polynomials Investigation

I also want them to begin to recognize that multiplying polynomials is a process of combining factors, a process that can be reversed to identify the factors. We will not finalize the students' learning today. We revisit today's work in lessons on factoring a Difference of Squares and factoring Perfect Square Trinomials later in this unit.
