Teachers are on the front line when it comes to working with students. It is important to include them in curriculum development because teachers often know what works best with their students.

Why should teachers be involved in curriculum development?

The Internet (portmanteau of interconnected network) is the global system of interconnected computer networks that use the Internet protocol suite (TCP/IP) to link devices worldwide. It is a network of networks that consists of private, public, academic, business, and government networks of local to global scope, linked by a broad array of electronic, wireless, and optical networking technologies.
