This PowerPoint is a guide in showing students how to measure to the nearest 1/8 of an inch and to the nearest centimeter. Students start by figuring out what the lines mean on a ruler using their knowledge of fractions. The "Enlarged Inch" graphic organizer goes along with the beginning of the Powe...

Measuring to the Nearest 1/8 Eighth of an Inch and Nearest ...

The oldest known sundial is from Egypt; it dates back to around 1500 BC (19th Dynasty), and was discovered in the Valley of the Kings in 2013. Sundials have their origin in shadow clocks, which were the first devices used for measuring the parts of a day. Ancient Egyptian obelisks, constructed about 3500 BC, are also among the earliest shadow clocks.

Trenton is the Head of Analytics at Life360, the world's largest mobile app for families. His data science philosophy ranges from qualitative surveys to machine learning, whatever drives company growth.

4 Things to Remember When Defining KPIs - datascience.com

No single answer to the question "What is light?" satisfies the many contexts in which light is experienced, explored, and exploited. The physicist is interested in the physical properties of light, the artist in an aesthetic appreciation of the visual world. Through the sense of sight, light is a primary tool for perceiving the world and communicating within it.
