A Darwinian view of life! Darwin gave biology its unifying principle -- evolution by natural selection -- explaining both the unity and diveristy of life on Earth. By attributing the diversity of life to natural causes rather than to supernatural creation, Darwin gave biology a strong, scientific, testable foundation.

AP Chem is abstract and very math oriented. The difference between AP Physics B and C is that one requires AP Calculus BC (which would be Physics C) and is calculus based. AP Physics B is taught with Precalculus and Algebraic math. Unless you plan on taking BC Calculus senior year or sooner, then don't take Physics C.
